THE UNITED STATES NAVAL ACADEMY

The Academy Today

The United States Naval Academy at Annapolis, Maryland, is the undergraduate college of the U.S. Navy. Its primary mission is to prepare young men for careers as officers in the U.S. Navy or the U.S. Marine Corps. The Academy is accredited by the Middle States Association of Colleges and Secondary Schools, and graduates of its 4-year course are awarded the Bachelor of Science degree.

Under the Academy's recent validating, elective, minors, and majors programs advanced undergraduate courses have become a reality for every midshipman. The basic curriculum consists of a core curriculum of 36 courses (two during second class summer) plus an elected minors program of six courses. A minimum of 144 semester hours is required for graduation.

The core curriculum is designed to give a midshipman the essential education in science, mathematics, engineering, social science and the humanities, and in naval science that he will need to perform effectively as an officer in the Naval Service. Completion of the minor contributes breadth of understanding in a field of particular interest to the midshipman.

Every midshipman is required to complete the courses of the core curriculum (or validate comparable college-level work) and to select and complete a minor. Courses for which a midshipman is able to validate previous work may be omitted and electives substituted. In addition, capable midshipmen are permitted to carry more than the minimum number of courses.

Historical Sketch

The Naval Academy in Annapolis was founded as the Naval School in 1845 by the Honorable George Bancroft, historian, educator, and Secretary of the Navy. Its site, Fort Severn, was obtained from the War Department. The first Superintendent was Commander Franklin Buchanan. His seven-member faculty of four

officers and three civilians taught gunnery, naval tactics, engineering, chemistry, mathematics, astronomy, French and English. About 60 midshipmen, formed in two classes, attended the Academy's first convocation.

Prior to 1845, the majority of a midshipman's training was conducted aboard ship under the ship's chaplain. Supplementary training was provided from time to time at various schools ashore. These included a short-lived school in the Washington Navy Yard established in 1803 and a naval school established in Philadelphia in 1839 to provide an eight-month preparatory course for midshipmen's promotion examinations.

Initially the course was five years. Of these, only the first and last were spent at the new Naval School in Annapolis. The intervening three were spent at sea. In 1850-51 the Naval School was reorganized as the United States Naval Academy. The course of study became four consecutive years. Summer practice cruises replaced the omitted sea service. Thus, today's basic four-year curriculum, supplemented by summer at-sea training, first appeared at the Naval Academy over 100 years ago.

The Board of Visitors first met at the Academy in 1851. During the Civil War the Academy was moved to Newport, Rhode Island. In 1864 it was returned to Annapolis where it has since remained. In the years following, a number of changes were made in the organization and curriculum. From 1873 to 1912 the academic course was six years, with the last two being spent at sea. In 1912 the two years at sea were omitted, and the course reverted to four years. During the Civil, Spanish-American, and World Wars the course was shortened to speed the flow of officers to the Fleet. In addition, both World Wars saw the training of large classes of reserve midshipmen and officers at the Academy.

On 25 May 1933, an Act of Congress authorized the Superintendent to confer the degree of Bachelor of Science upon all graduates from and after the date of the accrediting of the Academy by the Association of American Universities. Since the Association has previously accredited the Academy on 25 October 1930, graduates commencing with the Class of 1931 became eligible for the degree. By virtue of an Act of Congress approved on 8 July 1939, the Superintendent was authorized to confer the degree upon all living graduates. In May of 1947, the Naval Academy was accredited by the Middle States Association of

Colleges and Secondary Schools. The total number of graduates, including the Class of 1967, is 35,718.

Revolutionary changes in the Academy's traditional curriculum began with the 1959-60 Academic Year when, for the first time, provision was made for incoming midshipmen to validate previous college-level work and to substitute alternate or elective courses for equivalent courses in the basic curriculum. Concurrently, there was a broadening of course offerings and qualified midshipmen were encouraged to carry more than the minimum number of courses.

Academic Departments were incorporated into three major Academic Divisions under Division Directors reporting to the Superintendent: the Mathematics, Science, and Engineering Departments under the Director of Science and Engineering; the English, History, and Government and Foreign Languages Departments under the Director of Social Science and Humanities; and the Command, Weapons, and Naval Hygiene Departments under the Director of Naval Science. In addition, the Physical Education Department joined the Executive Department under the Commandant of Midshipmen.

The 1963-64 Academic Year brought further changes. These included the appointment of a civilian Academic Dean (pro tem), the initation of the Trident Scholar Program, and the conversion of the Academy's traditional 4.0-based marking system to the more widely used letter-grade system.

Under the Trident Program, a limited number of exceptional students are selected to engage in independent study and research during their First Class (senior) year. Each Scholar is assigned a faculty advisor. Scholars carry a reduced number of courses, and their research study and thesis constitutes the major part of their academic program for the year. The Classes of 1964 and 1965 each included six Scholars, the Class of 1966 had eight, the Class of 1967, twelve, and the Class of 1968, sixteen.

The 1964-65 Academic Year brought additional improvements in the Academy's administrative organization and the most significant of recent changes in its curriculum. The civilian line positions of Academic Dean and Dean of Admissions were established, reporting directly to the Superintendent. Grouping of academic departments under Division Directors was discontinued, and academic departments were placed directly under the Academic Dean.

The Academy's single, uniform basic curriculum was replaced by a flexible basic curriculum of core courses and an elected minor. Twenty-three minors and twenty-one majors (now twenty-three) were offered. Though sweeping, this most recent curriculum change followed logically the validation and electives programs begun at the Academy in 1959. Thus specialization, begun for *some* midshipmen in 1959, was insured for *all* midshipmen in 1964. The Class of 1968 was the first to enter the Academy under this program.

Increasing numbers of midshipmen have taken advantage of the Academy's new programs to complete advanced undergraduate work. Members of the most recent graduating class (1967), for example, were awarded 437 majors as compared with 209 for members of the Class of 1965 and 152 for the Class of 1964.

Improvement in the overall quality of incoming midshipmen, as measured by performance on College Boards, percentage of Merit Scholars, record of leadership achievement, and other key indicators, has kept pace with recent academic improvements. Special programs initiated in the fall of 1965 to attract Merit Scholars, Boys State participants, top-flight candidates from minority groups, and other highly qualified candidates have contributed to the high quality of young men entering today's Academy.

An Academic Advisory Board of distinguished educators, businessmen, and naval officers, appointed by the Secretary of the Navy to advise the Superintendent on academic matters presented to the Board, held its initial meeting at the Academy in November 1966. The Board meets at the Academy triyearly. The fall of 1966 also saw the inception of the Academy's Immediate Masters Program under which midshipmen who have completed graduate-level studies at the Academy may be selected to enroll for the masters program at participating civilian universities or at the U.S. Naval Postgraduate School immediately after graduation.

Recent efforts to strengthen the faculty have brought impressive results. Doctorates in the civilian faculty have increased from 56 to 111 in the last five years. In addition, during the same five year period, the number of officers on the faculty holding advanced degrees has increased from 42 to 152.

Physical facilities have also improved greatly through the years. Acreage has increased from Fort Severn's 10 to today's 302 acres. Much of this increase has resulted from a series of landfills in the Severn River. The most recent landfill, completed in 1959, added

56 acres for athletic fields and new buildings. Construction of buildings in the present French Rennaissance style began in 1899 with a Congressional appropriation of 10 million dollars. Mr. Earnest Flagg of New York was the architect.

Recent years have seen the addition of new wings to Bancroft Hall, the midshipmen's dormitory; the construction of a new field house for indoor athletics; the construction, with privately-donated funds, of the nearby Navy-Marine Corps Memorial Stadium; and the construction of a new Brigade Library and Assembly Hall. In addition, a multi-million dollar renovation of six of Bancroft Hall's eight wings has recently been completed.

A master 73 million dollar construction and rehabilitation plan is underway. Key structures in this plan are a new science building, Michelson Hall, named for Albert Michelson, a graduate of the Class of 1873, a former member of the faculty, and the first American scientist to be awarded a Nobel Prize, and an adjoining mathematics building, Chauvenet Hall, named for Professor William Chauvenet, distinguished member of the Naval Academy's first faculty. Both will be completed in the summer of 1968. Aggregate expenditure for land, buildings and equipment to date exceeds 70 million dollars.

A new engineering building and laboratory complex, a new 750,000-volume library, and a new 2,500-seat multi-purpose auditorium are included in building plans for fiscal 1970 and 1973. Extensive facilities for student and faculty research, computer-aided education, and educational television are included. All academic areas will be air-conditioned.

Appointment to the Academy

U.S. Citizens are appointed to the Academy without regard to race, creed, or national origin. Details of the entrance requirements and the course of instruction are contained in the *U.S. Naval Academy Catalogue.* Copies may be obtained without charge from the Bureau of Naval Personnel (Pers B66), Washington, D.C., or from the Dean of Admissions, U.S. Naval Academy, Annapolis, Maryland.

Total majors awarded 470

MIDSHIPMEN OF THE FOURTH CLASS, CLASS OF 1971

(Explanation of Symbols)

Symbols used in the following listing of midshipmen of the Fourth Class to indicate the method of qualifying scholastically and the source of appointment are explained as follows:

METHODS OF QUALIFYING SCHOLASTICALLY:

C—Qualified by the College Certificate Method.

E—Qualified by school records and College Entrance Examination Board Tests.

SOURCES OF APPOINTMENT

Congressional—Entered in accordance with provisions of the law which allows five midshipmen to be at the Academy at any one time for each Senator and Representative in Congress.

Presidential—Entered under provisions of the law which authorizes the President of the United States to make 100 appointments annually from among sons and adopted sons of officers and enlisted personnel, Regular or Reserve, of the Army, Navy, Air Force, Marine Corps, or Coast Guard who either (1) are on active duty (other than for training) and have served continuously on active duty for at least 8 years, or (2) are retired, or who die while they were retired with pay or granted retired or retainer pay, other than those granted retired pay under Section 1331 of Title 10, USC (provides for retirement at age 60 for combined active and inactive service of at least 20 years).

Vice Presidential—Entered in accordance with the law which authorizes the Vice President to have a maximum of five appointees at the Academy at any one time.

District of Columbia—Entered under provisions of the law which authorizes the Commissioner of the District of Columbia to have a total of five appointees from the District at the Academy at any one time.

Puerto Rico—Entered in accordance with the law which provides for six midshipmen to be at the Academy from Puerto Rico at any one time—one appointed by the President of the United States upon recommendation of the Governor and five appointed by the President upon nomination by the Resident Commissioner.

Regular Navy or Marine Corps—Entered under provisions of the law which authorizes the Secretary of the Navy to make 85 appointments annually from among the enlisted personnel of the Regular Navy or Marine Corps.

Naval Reserve or Marine Corps Reserve—Entered under provisions of the law which authorizes the Secretary of the Navy to make 85 appointments annually from among the enlisted personnel of Naval Reserve or Marine Corps Reserve.

Honor Military School, Honor Naval School, or NTORC—Entered under provisions of the law which authorizes the Secretary of the Navy to make a total of 20 appointments each year from among honor graduates of Honor Military or Naval Schools and from students at college Naval Reserve Officers' Training Corps units.

Sons of Holders of Congressional Medal of Honor—Entered under provisions of Public Law 228, 79th Congress which authorizes the President of the United States to appoint the sons of persons who have been awarded a Medal of Honor in the name of Congress for acts performed while in any of the Armed Forces of the United States.

Sons of Deceased or Disabled Veterans—Entered under provisions of the law which authorizes the President of the United States to have a maximum of 40 midshipmen who are sons of deceased or disabled veterans attending the Naval Academy at any one time. Eligibility for nomination under this quota is limited to sons of members of the Armed Forces of the United States who were killed in action or died of, or have a service connected disability rated at not less than 100 per centum resulting from, wounds or injuries received or diseases contracted in, or preexisting injury or disease aggravated by active service. The determination of the Veteran's Administration as to service connection of the cause of death or percentage of disability is binding upon the Secretary of the Navy.

Qualified Alternates and Competitors—Entered under provisions of the law which authorizes the Secretary of the Navy to appoint the 150 best-qualified congressional alternates. Additional appointments from qualified alternates and competitors may be made by the Secretary to bring the Brigade of Midshipmen to its authorized strength. If these additional appointments are necessary, at least 75 percent must be selected from congressional nominees. The remainder may be made from noncongressional sources.

Canal Zone—Entered under provisions of the law which authorizes the Governor of the Canal Zone to have one of his nominees at the Academy at any one time. Appointments are made by the Secretary of the Navy.

Virgin Islands, Guam, and American Samoa—Entered under provisions of the law which provides for the respective Governors to (collectively) have one midshipman attending the Academy at any one time. Appointment made by the Secretary of the Navy.

American Republics—Entered under provisions of the law which provides that, upon designation by the President of the United States, the Secretary of the Navy is authorized to permit up to 20 persons at a time from foreign American Republics to receive instruction at the U.S. Naval Academy. Not more than three persons from any one Republic may receive instruction at the same time. Such persons are not entitled to appointment to any office or position in the U.S. Navy by reason of their graduation from the Naval Academy.

Philippine Islands—Entered in accordance with the law which provides that the Secretary of the Navy is authorized to permit, upon designation of the President of the United States, not exceeding four Filipinos at a time to receive instruction at the Naval Academy. Such persons are not entitled to appointment to any office or position in the U.S. Navy by reason of their graduation from the Naval Academy.

GENERAL INFORMATION CONCERNING MIDSHIPMEN PROGRAMS, SUMMER 1967

AT-SEA TRAINING—FIRST AND THIRD CLASSES

The mission of the 1967 midshipmen at-sea training was to provide midshipmen with a practical working knowledge of the Fleet and the types of ships in which they were embarked, and at the same time to intensify their desire and love for the Navy and the sea.

The objectives of the training were to provide midshipmen with the facilities and the opportunities for afloat training and with the opportunity to visit various U.S. and foreign ports in order for them to:

- Develop a sense of attachment to, and pride in, ships and the seafaring way of life.

- Learn the organization of Navy ships and the responsibilities, duties, and privileges of the fighting men who live on board.

- Observe the employment, power, and mobility of naval forces.

- Apply knowledge acquired in the classroom in a sea environment.

- Broaden their cultural backgrounds.

The basic training concepts for midshipmen participating in the 1967 training were as follows:

- Midshipmen First Class trained on board Atlantic and Pacific Fleet ships as midshipmen, but were assigned to junior officer billets. They were given opportunities to assume the responsibilities of junior officers in as many departments as practical during summer training. They were assigned definite duties and responsibilities in these billets commensurate with their training status. Additionally, they were afforded essential wardroom indoctrination through berthing and messing in wardroom facilities to the maximum extent feasible.

- Midshipmen Third Class were assigned to Atlantic and Pacific fleet Midshipmen Training programs. The training squadrons made ports of call on the East and West Coasts of the United States, at Hawaii, and in the Caribbean Sea. The midshipmen were instructed and, as practical, permitted to assume various duties of ship's enlisted personnel. They berthed and messed in enlisted spaces and facilities.

A summary and description of at-sea training in which USNA midshipmen particpated follows:

Foreign Exchange Midshipmen Training

Thirty-nine midshipmen trained in the navies of various NATO and South American nations. Duration of training varied from four to eight weeks. Midshipmen selected for this program represented the U.S. and the Navy in foreign lands and had an opportunity to view and participate in social, cultural and professional programs of other nations.

Atlantic Training Squadron Training

Nine hundred midshipmen trained in Second Fleet ships in Western Atlantic waters during the period 8 June to 4 August. The ships visited various ports along the East Coast and Gulf Coasts of the United States, including New Orleans, San Juan, and Puerto Rico.

Atlantic Anti-Submarine Warfare Training

One hundred midshipmen trained in an Atlantic Fleet anti-submarine warfare force carrier group during the period 8 June to 15 July. A second group of 132 midshipmen trained with a similar group from 15 July to 30 August. Each training group visited several ports on the East Coast of the United States. A third group of 32 midshipmen trained from 28 May to 30 July aboard ships that visited ports in Northern Europe.

Pacific Training Squadron

One hundred and twenty-eight midshipmen trained in First Fleet ships during the period 8 June to 4 August. Fleet training was accomplished off the West Coast of the United States and in Hawaiian waters. Port visits included Seattle, San Francisco, Long Beach, San Diego, and Pearl Harbor.

Mediterranean Training

Three hundred and sixty-five midshipmen trained in Sixth Fleet ships during the periods 8 June-20 July and 30 July-4 September. Port visits included various ports in the Mediterranean.

Atlantic Submarine Training

Seventy-six midshipmen trained in Atlantic Fleet submarines during the period 8 June to 15 July. Embarkation and debarkation ports included Norfolk, Charleston, and Key West.

Pacific Submarine Training

Forty midshipmen trained in Pacific Fleet submarines operating from West Coast and Hawaiian ports during the period 8 June to 15 July. Airlift was provided to ship homeports.

Ashore Training—Second Class

The Class of 1969 was divided into three main groups of about 250 each and a Plebe Supervisory Detail of 165. The Plebe Detail spent the summer in Annapolis supervising and instructing the new class of incoming plebes (Class of 1971). All were granted leave at various periods during the summer. The three main groups alternated in a three-phase summer composed of leave, academic study, submarine indoctrination at New London and Charleston, and aviation indoctrination at Pensacola and Jacksonville as described below:

Summer Academic Studies

For the third time, summer studies were instituted at the Academy for the entire Class. Courses of instruction included Practical Navigation, Line Tactics, and Ship Hydrostatics (Buoyancy and Stability).

Pensacola/Jacksonville

Chief of Naval Air Basic Training and COMFAIRJAX combined to present the midshipmen with basic flight training in various types of training aircraft and with indoctrination in high-performance jet aircraft. Military air transportation was provided by the Navy to these Florida training areas.

New London

COMSUBFLOTTWO presented the midshipmen with basic submarine indoctrination including tours of FBM and conventional submarines, new construction, tenders, and training facilities.

SPECIAL VOLUNTARY PROGRAMS—ALL CLASSES

Midshipmen of all Classes participated in special voluntary training programs during their leaves as follows:

- SCUBA training at Underwater Swimmer's School, Key West, Florida (13 midshipmen).
- Damage control and ABW School at Philadelphia, Pennsylvania (midshipmen).
- Army Jungle Warfare School, School of the Americas, Fort Gulick, Canal Zone (13 midshipmen).
- Army Foreign Area Specialist Training Program, Garmisch, Germany (4 midshipmen).
